XII(WBCHSE) Science 80.8%	
Mundamari Ushananda Vidyapith	2013-2019
X(WBBSE) General 86.42%	

PROFESSIONAL EXPERIENCE

Kulturehire	Nov 2024 – Feb 2024
Data Analytics Intern	
- Demonstrated strong analytical skills by collecting, cleaning, and analyzing data using Excel. Created interactive dashboards with Excel and Power BI to present insights. - Conducted data analysis using SQL to derive actionable insights. Proven ability to adapt to dynamic environments with a high level of commitment, enthusiasm, and work ethic.	

PROJECTS

AUTOPARK

- Developed AUTOPARK, an IoT-based smart parking system using NodeMCU ESP8266, IR sensors, and Blynk API for real-time monitoring of parking slots.
- Designed a user-friendly web interface for registration, generating QR codes for secure access to parking availability and status updates.
- Integrated hardware components with cloud-based data processing to streamline parking management, enhancing user experience and reducing congestion in urban areas.

UNDERSTANDING CAREER ASPIRATIONS OF GEN-Z

- Conducted business analysis on Gen Z career aspirations as part of KultureHire Learnternship.
- Collected, cleaned, and analyzed data using SQL and Excel; developed insightful dashboards in Power BI.
- Presented findings through a focused, visual data story to highlight key trends and actionable insights.
